

AUTO PO PRO 5.0

For TIW WorkShop32

Auto PO Pro 5.0 for TIW WorkShop32 converts WorkShop32 Plan requirements into SBT ProSeries 5.0 purchase orders automatically. Auto PO Pro is an ideal solution for WorkShop32 users who want to convert their Plan requirements into purchase orders quickly and efficiently.

Features of Auto PO Pro for TIW WorkShop32

- C Generates a *recommended reorder* list of needed items which can be added to, edited, deleted and manipulated like ordinary purchase orders before they are converted to purchase orders
- WorkShop32 work order numbers travel from Plan to Auto PO Pro and to the generated purchase order in the PO "Remarks" field
- C Converts recommended reorders to purchase orders either *singly*, by *vendor*, *location*, or all at once
- C Full support for multiple locations and multiple suppliers
- C Allows selection of either *default* supplier, *supplier last used*, or *least expensive* supplier
- New!** Switch feature lets you easily re-allocate required items from one vendor to another
- New!** Recommended Reorders may be printed as a *Request For Bid* form
- C Detail and Summary reports on pending recommended reorders sorted by vendor, location and item
- C Marks newly generated purchase orders as either printed or unprinted as per user instructions
- C Interface and programming compatible with *SBT ProSeries 5.0i* standards
- C Modifiable, source code included
- C Reliable. Now in its *fourth* SBT ProSeries generation and running flawlessly for satisfied users around the world
- 100% compatible with *SO-2-PO Pro* from Lefkowitz Systems
- 100% compatible with *Seasonality for Auto PO Pro* from Lefkowitz Systems
